LOLA PROCESS EQUIPMENT AND MACHINERY

Production hall - assembly

Lola process equipment and machinery (Lola Pom) has operated since 1948. Lola Pom has designed and implemented its projects in many countries around the world: Russia, Iran, Iraq, Egypt, Algeria, Cuba, Sudan, Myanmar, France, Romania and the states of the former Yugoslavia.

The main production program of Lola Pom includes design and construction of factories, production lines, plants and machinery for mining, energetic, metallurgy, environment and others.

Lola Pom is capable of carrying out a complete production process from design to commissioning.

The production program of Lola Pom:

- Mining equipment: mining conveyors, mills, excavators;
- Equipment for hydro and thermal power plants: shafts, turbines;
- Metallurgical equipment: steel mills, rolling sheets;
- Gearboxes and gears;
- Transport equipment: industrial cranes, conveyors;
- Environmental equipment for waste sorting, recycling, processing, composting;
